

Midwest Textiles & Supplies
Midwest Roots. Global Reach.

STAND OUT AMONG THE CROWD

Our Kwik Kits BOM program is set up to save you time and money!

Midwest offers three innovative kit styles to help your shop grow its BOM club offerings:

1. Ready-to-Sew Kwik Kits - Precut pieces to get customers sewing faster. Perfect for any level quilter
 - The beginner looking for a quick start without the complications of cutting
 - The experienced quilter who needs something fast, fun, & done
 - Any quilter with limited abilities for cutting
2. Intermediate Kwik Kits - the best of both worlds - we cut & you teach. We provide the perfect amount of fabric for each block with minimal waste. You offer quilters kits that will take them through cutting, piecing and finishing. Perfect for quilters who want every step of the process.
3. Traditional BOM Kits - those flat fold yardage kits that you know and love--but we'll do the work for you! Yardage is cut from width of fabric, so there's a little extra of each SKU. Kits come measured, packaged and ready to display.

Program Options:

1. Choose a kit from our extensive list of BOM & Quilt Kits
 - Let us create the BOM Kits for you - leave the labor-intensive parts (the cutting and packaging) to us
2. Use your own quilt kit:
 - Create your own BOMs just for your shop by choosing from 1000's of fabrics that we distribute, drop ship your own fabrics, or use RB Studios fabrics for an extra 5% discount on select orders
3. Let's create something unique together:
 - Take advantage of our design flexibility to speak to your customer base and work with our design team to develop something new
